

OBJECTIVE

Motivated software engineering graduate with hands-on experience in full-stack development and software project delivery. Seeking to leverage strong programming skills, problem-solving abilities, and a passion for innovation to contribute to impactful software solutions.

EDUCATION

BEng (Hons) in Software Engineering with Industrial Placement

Informatics Institute of Technology (Affiliated with the University of Westminster)

2021- 2025 | Second Upper Division

EXPERIENCE

hSenid Software Lanka (Pvt) Ltd

No.100, Ward Place, Colombo 7, Sri Lanka

Intern (2023 – 2024) | Trainee (2024 – 2025)

- Contributed to frontend development using Angular, ensuring clean, maintainable code following industry best practices.
- Gained practical experience with frameworks such as Spring Boot and Angular.
- Applied version control best practices using GitHub in collaborative projects.
- Delivered project features within deadlines, improving time management and teamwork skills.
- Integrated frontend components with Spring Boot REST APIs and collaborated with backend developers to troubleshoot data-flow issues.
- Refactored similar Angular components into reusable, modular components to improve maintainability and scalability.

PROJECTS

- TravelTales
 - Built a platform integrating real-time country data with the user's travel experience.
 - Implemented backend with Express.js and frontend with Angular + Nebular theme.
 - Applied JWT authentication, SQL custom filters, and explored containerization with Docker.
- OnlineShop
 - Developed a responsive e-commerce frontend using React, implementing reusable components and product rendering.
 - Implemented state management and API handling for seamless user interactions.
 - Deployed the application on AWS Elastic Beanstalk, ensuring scalability and interaction

- LeaveManager
 - Designed an employee leave management system with Spring Boot, Angular, and TypeScript.
 - Implemented CRUD operations and admin approval workflow.
- SurPlus (POS system)
 - Point of Sale system with a Sales prediction feature.
 - Worked with PHP, HTML, and CSS and contributed to team-based CRUD functionality development.
 - Enhanced leadership qualities by leading the group project.

TECHNICAL SKILLS

- Programming: Java, JavaScript, TypeScript, SQL, HTML, CSS
- Frameworks and Tools: Spring Boot, Angular, React, Express.js, Flask, Docker, Bootstrap, Nebular
- Databases: MySQL, SQLite, MongoDB
- Other: GitHub, Docker, AWS

SOFT SKILLS

- Strong communication skills
- Problem-solving mindset
- Team collaboration
- Adaptable to new technologies

INTERESTS

- Badminton
- Swimming
- Graphic designing
- Photoshop
